TO: John A. Roth
Commissioner
Bureau of Environmental Protection

FROM: Jack A. Wilson *JAW*
Acting Director
Division of Water Quality

DATE: December 9, 1977

Attached is the inspection report on A. L. Taylor. This is follow-up information to that provided to you last week about our involvement with that company. Laboratory reports have not yet come in. I have talked with Tommy Glover about the case and at this time, we do feel we have sufficient information to make a referral. When Tommy pursues the case on behalf of Hazardous Materials, he will contact us for this and any additional information which we may have gathered.
